

So that we may help you find the right exhaust for your application, we have created the Emission Compliance Guide. An up-to-date comprehensive guide to navigate you through the sometimes complex world of “Is this system ok to install on my vehicle?,” as it pertains to Yoshimura exhaust.

We have created four different categories to help you understand what system is best for the specific application. Click on each icon above to see the description of each series. If its green, you can install without any issues. If it's red, it's a racing system only!
