-TOOLS REQUIRED-

Metric Socket Set • Combination Wrench Set • Metric Allen Wrench Set • Wire Crimper

-REMOVAL-

1. **Remove left and right side panel.**
2. **Remove seat and tail as per factory service manual.**
3. **Disconnect turn signal, brake light, and license plate light wires.**
4. **Remove the (4) bolts securing the stock fender to frame.**
5. **Remove stock turn signals from fender assembly.**
6. **Cut the stock brake light connector from the stock fender.**
Note¹: Be sure to cut as close to the stock brake light as possible. (Green/Yellow Stripe, Black, Green)
Note²: The stock license plate light connector will not be used with the Yoshimura Fender Eliminator Kit.

-INSTALLATION-

1. **Install stock turn signals onto Yoshimura Fender Eliminator Bracket using the stock hex nut that secures the turn signals.**
2. **Assemble and install Yoshimura Fender Eliminator kit as shown in the parts diagram.**
3. **Route wiring through hole in bracket, then through tail section to stock location. Re-connect turn signal connector to stock harness.**
4. **Using the connectors provided in the kit, connect the Yoshimura brake light wires to the stock brake light connector as follows:**

<u>Stock Harness</u>		<u>Yoshimura Light</u>
Green/Yellow	>>>>	Red
Black	>>>>	Yellow
Green	>>>>	Black

- A) **Strip the stock fender light wires ends ¼" - ½" and insert into BN-SSS-22-18, butt connectors provided in the kit.**
- B) **Center the spliced wire ends in the middle and using a heat gun or lighter, apply heat evenly on the outer edges of the butt connector to shrink and hold wires in place.**
- C) **Making sure that the stripped ends are centered, heat the center of the butt connector evenly until the solder begins to liquify.**
- D) **Allow to cool completely and tug both ends of the wires to verify that connection is secured.**

Scan for link to butt connector instruction video.

- 5. Re-install tail and seat using the reverse steps of removal.***
- 6. Re-install left and right side panels.***
- 7. Check for function of license plate light and that all brackets and pieces are secure prior to riding.***
