073BG117300

No.	Item	Description	Qty.
1	073BG117300-B	Front Turn Signal Plate	2
<i>Optional Recommended Accessories</i>			
	072BGLTSFK	Yoshimura LED Front Turn Signal Kit	
	072BGLTSFK-S	Yoshimura Sequential LED Front Turn Signal Kit	
	RLYG2	Yoshimura Turn Signal Relay	
	073BG-KTM	Yoshimura Plug-and-Play Turn Signal Wire Adapter	

IMPORTANT: Installation of this product requires the use of aftermarket M8 mounted turn signals.
Not compatible with stock turn signals.

Removal

**** GSX-8T ****

1. Remove the headlight shroud.
2. Remove the turn signal holder. (Push pin by the meter display, turn signal holder's mounting bolts, and 2 pull-out tabs underneath the headlight).
3. Locate and disconnect turn signal connectors.
4. Remove turn signals from the turn signal holder.

**** GSX-8TT ****

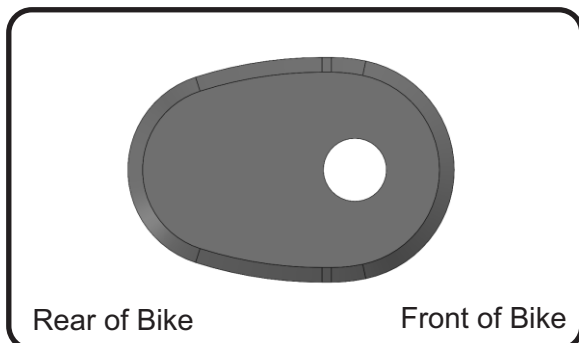

1. Remove the headlight cowl (2 bolts and 6 push pins).

Note: Once the mounting hardware is removed, carefully pull from the windscreen, then pull from the bottom of the headlight cowl once the cowl hinges from the bottom two mounting studs.

2. Locate and disconnect turn signal connectors.
3. Remove turn signals from the turn signal holder.

Installation

1. Install aftermarket turn signal and *073BG117300-B*, front turn signal plate into the turn signal holder. Secure using the turn signal washer and nut.

RIGHT SIDE EXAMPLE SHOWN

2. Repeat steps for the opposite side.
3. Reconnect turn signals.

4a. GSX-8T: Reinstall the turn signal holder and headlight shroud using the reverse steps of removal.

4b. GSX-8TT: Reinstall the headlight cowl using the reverse steps of removal.

5. Check for proper function of turn signals and that all components are secure prior to riding. Adjust turn signal rotation as needed and tighten the turn signal nut.

IMPORTANT NOTE:

****** *RLYG2*, flasher relay is recommended for proper turn signal flash and is sold separately. Please see the appendix below for turn signal relay installation.
